LETTER FROM THE EDITOR-IN-CHIEF

This is the second issue of Proceedings of the VLDB Endowment (PVLDB), Vol. 5. PVLDB publishes papers accepted as a result of a journal-style reviewing process from papers submitted via a monthly, year-around submission cycle. All PVLDB papers published throughout the year will be presented at the VLDB 2012 Conference, to be held in Istanbul, Turkey, August 27-31, 2012.

There are six excellent papers in this issue of PVLDB, five from the research track and one from the experiments and analysis track of VLDB 2012, covering a range of timely and interesting database research topics including parallel online transaction systems, data summarization in map reduce using histograms, cluster matching and cluster mining in streaming environments, multilingual schema matching for Wikipedia infoboxes, semantic web, and association rule mining.

I thank all the reviewers, PC co-chairs, and proceedings chairs, for their dedicated hard work towards making the PVLDB process possible, and putting this issue together. Thanks again to all authors for their submissions: keep submitting your best work to PVLDB, and I look forward to seeing you all in Istanbul.

I hope you will find the articles in this issue and all issues of PVLDB Vol. 5 inspiring and interesting to read.

Enjoy!

Z. Meral Özsoyoğlu, Case Western Reserve University
