

Grand Challenges Mentoring Session at VLDB2022

Wednesday Sep 7, 2022 | Room C2.3 | 12.00-13.30

This session will give mentees a chance to gain first hand guidance and inspiration on grand challenges and future research opportunities from experienced researchers in the VLDB community who are attending VLDB2022. The event has been organised in *tables* based on broad areas of research within the VLDB community. The following mentors have kindly agreed to support this mentoring session.

Mentees are invited to grab their lunch and come over and join the table of your interest. Half way through you will have a chance to move to a second table.

TABLE 1: Data Mining and Analytics, Machine Learning, AI and Databases, Data Privacy and Security (55 mentees chose this as one of their topics)

Arindam Bhattacharya
Viktor
Yao Lu
Diego Macadar
Primal Pappachan

TABLE 2: Database Engines, Database Performance, Distributed Database Systems, Novel DB Architectures (35 mentees chose this as one of their topics)

Subarna Chatterjee
Rebecca Taft
Chen Li
Subhadeep Sarkar

TABLE 3: Graphs, Networks, and Semi-structured Data, Specialized and Domain-Specific Data Management, Text, Semi-Structured Data, and IR (28 mentees chose this as one of their topics)

Kavitha Srinivas
Senjuti Basu Roy
Matteo Lissandrini
Joseph Meyer

TABLE 4: Information Integration and Data Quality, Languages, Provenance and Workflows, User Interfaces (11 mentees chose this as one of their topics)

Divesh Srivastava
Felix Naumann
Sudeepa Roy
